Interior

An abandoned Victorian mansion and a fully derelict cottage on the same plot, as a vacant site, it is available for shoots 24/7. Recces can easily be arranged at any time via a local agent.

Suitable for very large shoots: as a large site with plentiful hard standing for vehicles, and with few near neighbours, it is suitable for even the very biggest shoots.

The mansion is boarded up but in relatively good condition inside. There are a substantial amount of large empty rooms available throughout. Stripped back kitchen areas, a fully fitted kitchen and a bar type area some of the more "furnished spaces". Some rooms have an urban feel with graffiti, in particular the attic rooms. Up here, you also have access to the pitched roof.

The owners welcome crews decorating or extensive set dressing within the property, with prior discussions. Within the same plot there is a further cottage of a good size which is fully derelict.

This property is quite unique, as although abandoned you still have access to working electricity (three-phase supply) as well as mains water.

Exterior

There is plenty of hard standing that can accommodate a large number of vehicles, which can be accessed directly from the street via the gates. The property provides a quiet location due to the size of the plot.

There are large mature trees surrounding both buildings.
