- Wallpapered Walls

#### Interior

Inside we've kept to the neo-classical theme with original details like the eight columns stretching from the bar to the restaurant and intricate ceiling details (though admittedly we added the animal heads). In the dining area you'll find wood-panelling to add an air of decadence, coupled with comfy leather chairs for a more relaxed feel in the seating areas. An elegant staircase leads to the mezzanine for discreet dining, and we've even kept the bank's boardroom should one fancy a more private engagement.
