## **Interior**

Charming character cottage with large rooms offering many possibilities for filming. Some of the property is still in pre-renovated condition, so there is currently the ability to mix a 1970s bathroom with more modern shabby chic backdrops.

The property have both 13A domestic and Single Phase power available (fusebox is rated at 100Amp).

## **Exterior**

The property is entered via a short track comprising hard-standing stone, and just beyond a small orchard you are met by a short parade of outbuildings currently used for light commercial activities. The house is located opposite the workshops, and is surrounded by lawned gardens with open fields beyond. In the garden there will shortly be an amazing bespoke tree house (also available as a prop at a studio location, or to use in situ).

At the back of the workshops there is another yard with large tree trunks and some discarded machinery.
