Control Room In London Power Station For Filming

Control room in a large power station for filming and video shoots

Location: South West London, London, United Kingdom

Within the M25: Yes

Categories: Factories & Mills

Features:

Interior

The room was built to manage the distribution of electricity generated by the Power Station. The Grade II listed Art Deco space has been expertly restored. The original switchboards, control panels and machinery have been returned to their former glory. Teak parquet floors, marble finishings and an elaborate gold-coffered glass ceiling present Art Deco glamour at its most authentic.
