## **Interior**

The interiors of all 3 houses are tropical with living areas open to the rainforest, plenty of wood detail, 4 poster beds with nets, hardwood floors and rainforest views. I think our location is unique in that it is easily accessible but appears to be deep in the rainforest with spectacular landscape, flora and of course wildlife !

.Barefoot Luxury houses & Film Friendly Owners

The Lodge is a 2 hectare rainforest & river property on the Caribbean coast of Costa Rica with two luxury houses with private plunge pools.

Privately owned rainforest and river with easy access, spectacular flora and fauna and enough space for crew and equipment.

## **Exterior**

The exterior is rainforest garden with an area of untended rainforest leading to a river. The river location is wild, but accessible, studded with stones and surrounded by rainforest. The garden is full of tropical flowers, palm trees, banana trees huge and ancient rainforest trees covered in creepers and 'Tarzan vines'. Just down the road are spectacular Caribbean beaches.
