Interior

A broad variety of rooms in varying state of decay. Some spaces are actually quite clean and tidy, but following some spaces being used as a Cannabis farm, and other adverse activities, other rooms are structurally sound but in bad decorative order.

There is power on the ground floor, but long extensions will be required to connect to the top floor of the warehouse where some of the most interesting spaces are.

Exterior

Fabulous courtyards in varying stages of decay, and perfect for fashion photo shoots!
