Interior

Exposed steels, cavernous ceilings, concrete floors and brick walls. Purposely converted for locations/shoots/events - All units and furniture is free-standing thus movable. Fitted kitchen plus bathroom and shower facilities on the lower floor. The main space is the huge central atrium with four furnished studios arrayed around it. These are also full height with mezzanines for a variety of lighting/shot angles. Also suitable for green room/hospitality - currently set up as duplex apartments with living room layout below and bedrooms above.

Exterior

Warehouse down a small lane next to the elevated section of the London Overground. Directly above a Station with views across the platform. Stylish, unspoilt industrial. Mixture of old and new economies. Iron rail bridge, grimy underneath. From the outside unprepossessing - size and nature of building within well-hidden from street. Iron doors to access - two from street.
