Photographers enjoy it being south facing and with an abundance of natural light, but for film makers we also have blackout blinds on all the windows. There are two fully equipped kitchens, a large marble bathroom/changing area, makeup mirror, sanded wooden floors, original Victorian brick walls, polished Welsh slate entrance, original Crittall windows and two wrought iron spiral staircases, plus alternative access for easy loading/un loading, 3 Phase power, 24 hour security and catering on request. Facilities Available To Film Makers The studio is a converted Victorian zip and suspender factory, set within a private courtyard. The studio is used for a variety of film and stills shoots, alongside hosting conferences, presentations and fashion events etc. Despite its central location the studio is amazingly quiet, and therefore suitable for any production requiring sound recording. A split level studio of just under 1000 sq feet, adjoining a large fully equipped kitchen of 500 sq feet. Both areas have high pitched roofs, with exposed Scotts pine roof trusses. A balcony complete with custom built French doors is an amazing new feature for shooting within the kitchen and also means that lighting cranes are no longer needed.
