- Reception
- Store Room

## **Interior**

Refurbished chapel over two floors.

Ground floor retains original character charm and stained glass window. Glass fronted offices and modern desks sit within the building and act as business premises for a financial services company.

The upper floor has been renovated to similar high standards and features stained glass windows, character features and a high domed ceiling with chandelier.

In addition, glass fronted modern meeting rooms have been sympathetically installed within the building. In keeping with the needs of modern business premises the building has modern wiring, electronic entry and high speed internet..

## **Exterior**

A chapel with a grand façade featuring 4 pillars supporting a large stone apex..

Steps lead up to the pillars which, in turn, sit within a large alcove area below an apex ceiling. Double doors lead through to an entrance hall with refurbished mosaic tiled flooring.
