Interior

On three levels, the first floor retains most of its original walls but feels open plan. The bespoke kitchen, living room, music room and dining area run through, with doors to divide as required. To the side of the kitchen is a study, funky toilet and utility area. The first floor comprises three bedrooms and a bathroom, designed in the style of a period gentleman's washroom, with high level Burlington WC, slipper bath, burlington sink and shower cubicle which can be completely sealed for use as a steam room. The second floor exists within a mansard conversion, and comprises two further bedrooms and bathroom, which again leans towards the washroom feel. The Juliette balcony of the rear bedroom looks out onto the lush back garden, in which we have created a curated forest floor, where wildlife thrives.

Exterior

This mid-century property sits in the middle of a quiet cul-de-sac. The front of the house benefits from a long drive up to the garage, and directly in front of the house is a crazy paved garden, planted with hardier plants.
