- Residential View

Walls & Windows

- Bay Window
- Large Windows
- Skylights
- Stained Glass Windows

- Stone Walls

Interior

The design is cool & contemporary and decor a neutral warm grey. Our favourite room! Completely open plan, and flooded with natural light from the huge sliding window doors which open to the garden. A large fire door keeps this room noise free from the rest of the house!

Basement - Another good sized room, similar to the living room in light & decor. Currently used as a playroom but toys can be moved to the adjacent study.

Drawing room - A quiet, peaceful room with TV, black leather furniture & wooden floors.

Babies room - A bright, rainbow themed room.

Boys room - A crazy turquoise room with cow print furnishings!

Master bedroom - Very simple room with black velvet snakeskin bed & black furniture.

Master bathroom - A large, fabulously sexy marble bathroom with his & hers basins. Lots of mirrors and lights!

Guest bedrooms - Similar sized welcoming double guest rooms which are accented by individual bright fuchsia & teal colour schemes.

Exterior

Garden - a good sized (900sq ft) south east facing garden. Like the house, the look is clean & contemporary! The rear of the garden drops down a level and overlooks a tennis club, making it supremely private. The garden is accessed via the large sliding living room windows or side gate. It has off street parking.

Parking - large driveway which can comfortably accommodate two large cars. Directly outside the house is a residents permit bay for which we have permits and which can also be suspended via the council.

Location - We reside in West Hampstead, a lovely peaceful but buzzy little "village" in North West London.

West Hampstead boasts unbeatable transport links, and is served by tube (Jubilee Line), Overground and Thameslink stations, all within a five minute walk of the property. The M1, North circular (A406) and A40 are only a few minutes drive away. We also have excellent parking facilities.
