Interior

A lovely Modernist house with on-site parking, a tropical private garden courtyard, within a short walk of both Highgate Village and the Underground station. Accommodation is arranged over two floors, with the principal rooms facing south and overlooking the garden. On the ground floor there is an entrance hall leading to an open-plan dining area.

The living room is a spectacular space with almost full-length floor-to-ceiling glazing making it a wonderfully light area to live in and shoot in. The glazed doors can be pulled right back and open the house up to the garden boasting with great natural light. The limestone tiles flow is mirrored in the tropical courtyard, creating the idea of an extended outdoor room.

The beautifully styled interior has a bohemian feel and also features an artist studio.
