Features:

Interior

Formerly a hotel and restaurant, the grade II listed building has been carefully renovated into an 8 bedroom home. The property offers the perfect blend of modern comforts and hints of historic charm. The kitchen and family room are at the front of the property, facing the spacious well established garden. The original beams and lime pointed stone walls really add to the character of the kitchen. It is fully equipped with new appliances, including a double-hobbed induction cooker, american style fridge/freezer, toaster, kettle, Nespresso coffee machine, and a full range of catering sized cookware and utensils. A choice of 3 seating areas offers ample space for all guests to dine together. The conservatory is full of natural light and serves as a games room, with a multi games table, allowing you to swap between pool, air hockey and table tennis. Rooms on the first floor include 2 doubles and 3 king size beds, all with their own ensuite. Up on the 2nd floor there is a further king size bedroom and ensuite, along with two further rooms which make up a lovely family suite sharing a family bathroom. The larger of the two rooms includes a king sized bed plus a day bed and trundle to sleep a further 2 guests. The adjacent smaller room includes 2 single beds.

Exterior

The Grade II listed house features idyllic views across the well established gardens. The beautiful large gardens boast ample tables and seating for al fresco dining, mature planting and trees including an ancient Mulberry tree. The main garden has a delightful play area with solid wooden climbing frame, swing and slide set. There is a large car park next to the house with spaces for up to 17 cars.
