**Interior**

Modern interior throughout split across several levels including a cellar. Three bedrooms and two shower rooms are found upstairs, one of them having a double height ceiling. The downstairs features an open plan living area, kitchen and dining nook near the front of the property. The interior is sleek and modern.

**Exterior**

This is in the heart of Manchester and is rare to find a townhouse available. The alley outside and the graffiti on the exterior gives it a gritty alternative look compared to the interior.
