Interior

The house has recently been renovated and has light and neutral decor throughout. This includes a large kitchen diner with an island. It has white worktops, light coloured units and matching walls. There is space for a table or seating area near the glazed doors to the garden. You will also now find a matching utility room, which has a window and terazzo style tiles.

The hall way and staircase in part of the house has also been renovated to the same style as the kitchen.

There is a quirky staircase that takes you to the basement and upstairs to the bedrooms with sloped ceilings and a bright modern bathroom.

Exterior

The garden is spacious with lots of land for parking if needed, as well as the driveway and garages.
