Interior

This is a fabulous example of a Devon round house which was tastefully converted from a barn in circa 16th Century.

The house, set in the idyllic countryside of North Devon, is full of character and beautifully decorated and furnished.

The style of the house is names because of the lounge, which is round in shape. This is where donkeys were used, walking round in circles, to drive machinery to grind wheat.

The house is set in 2 acres of gardens and paddock.
