Interior

This is a picture-postcard 2 storey thatched country house with many unusual fairy-tale features including horseshoe roof, eyebrow windows, vaulted entrance hall with curved staircase and beautiful cottage gardens. The interior is furnished and decorated to the highest standard including designer wall coverings and fabrics and tasteful collection of antiques and objets d'art. There are 4 extremely large, comfortable bedrooms, all with vaulted ceilings and each with its own private ensuite. There is an extra-spacious drawing room (32' x 16'), dining room with seating for up to 16 people and a spectacular kitchen with 4-oven Aga, granite countertops and marble floors throughout. There is also a spacious and comfortable sunroom with French fireplace and double height windows with superb views over the Weir Estuary. There are large outdoor cobbled terraces which are also furnished and offer wonderful spaces for al-fresco dining or for relaxing and unwinding.
