Interior

Boeing 737 simulator available to hire for filming and photo shoots.

You access this great location via the authentic airport lounge where you'll find a check-in desk, seating area, authentic signage and departure screens which flash and change as they would in an airport.

Take the airway passage to access the plane itself. Here you'll find:

- An authentic 737 flightdeck with working controls and simulated views through the cockpit windows
- Cabin with 2 rows of seats and associated storage
- The modular assembly means that almost any camera angle can be accommodated by removing a section of the plane - cockpit or cabin

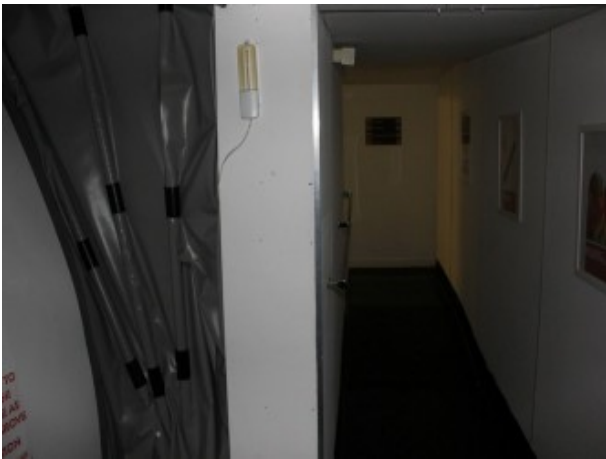

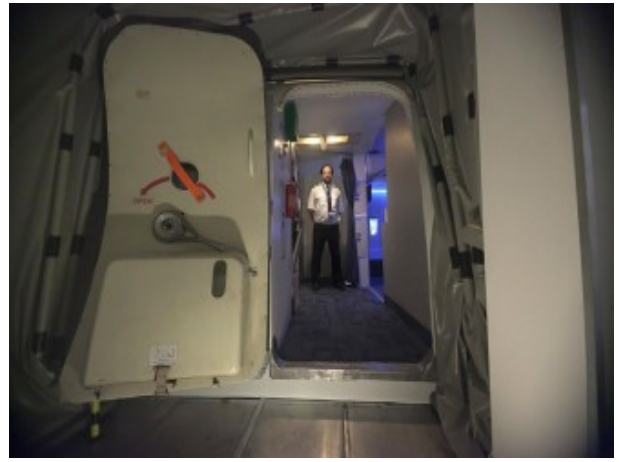

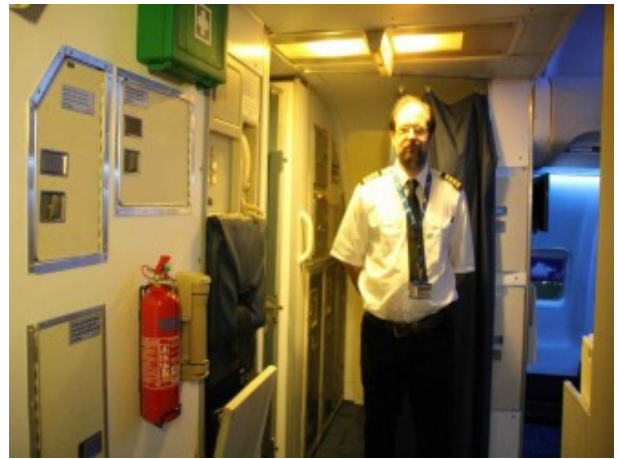

Additional spaces are available for use as Green Room, Hair/Make-up or Changing Rooms.

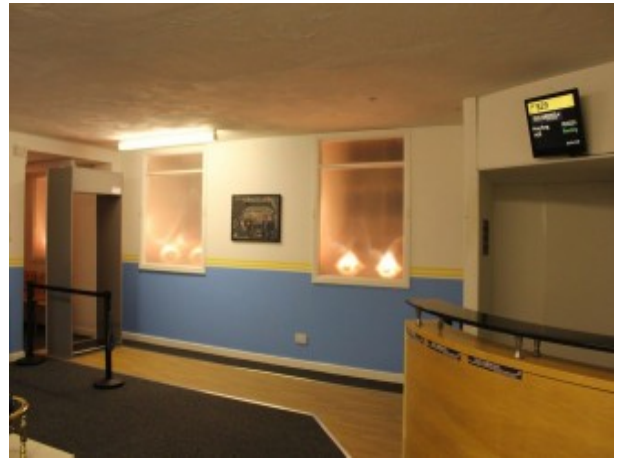

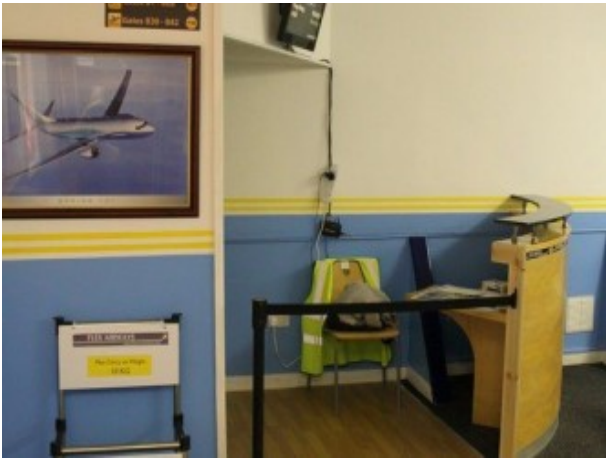

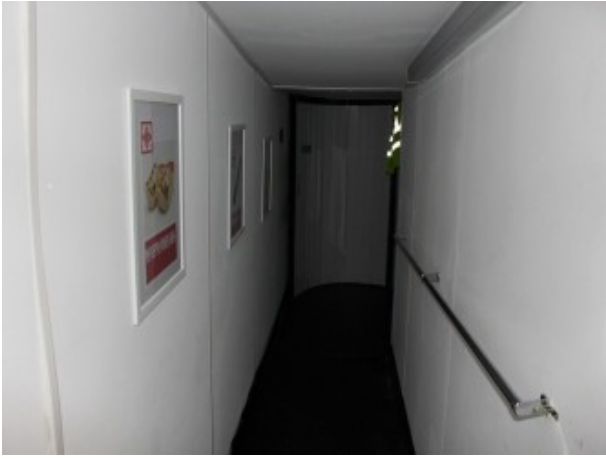

If required the location can also hire you uniforms with a few days notice

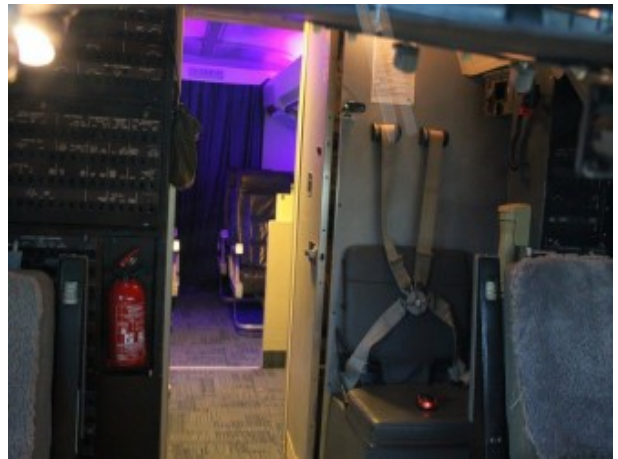

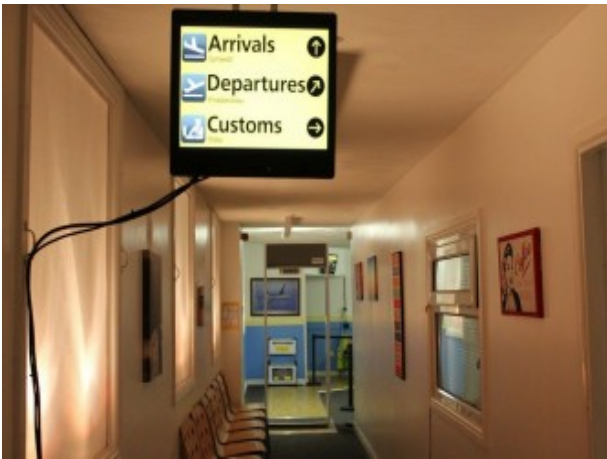

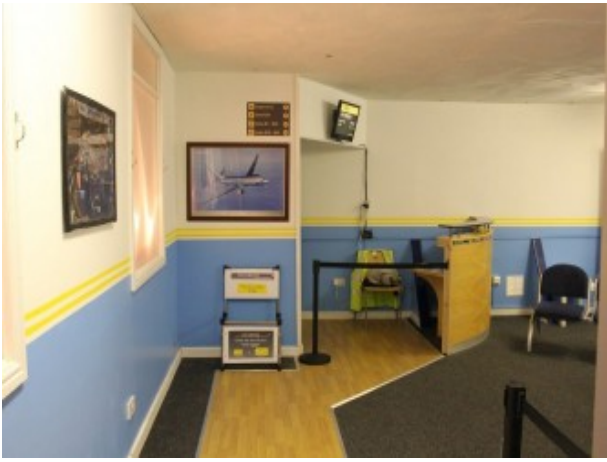

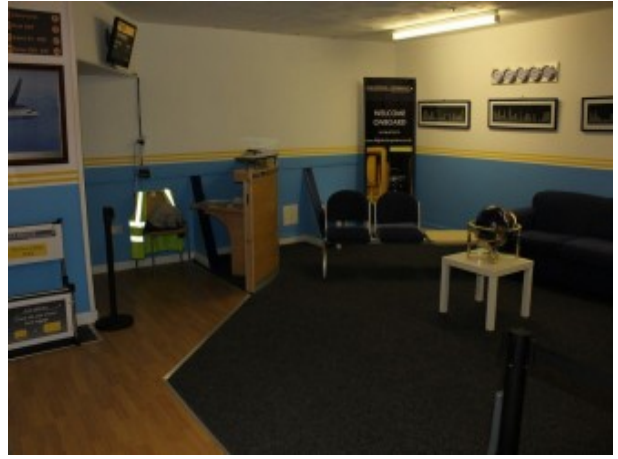

Exterior

The simulator is hosted in an old Mill building which has lots of parking.
