Interior

The building was constructed in the 12th, 17th and early 20th century. It features an original lancet window arch (housing a stained glass window) and an original door arch from the 1100s, an inglenook fireplace, logburners, exposed beams and wood panelling.

Exterior

Outside in the grounds, a freshwater spring runs into a stream, across which a bridge connects paths laid around 0.75 acres of mature garden planted extensively with shrubs, lawns, a kitchen garden and an orchard. The overall feel of the grounds is one of a rural cottage garden. A gate at the back of the garden leads to a footpath that leads across farmland to a bridge that crosses the River Washford. The property is surrounded by farmland.
