Interior

An attractive Victorian family home with modern yet traditional styling throughout. Many of the original features including wooden floors, cornicing and fireplaces can be found throughout. Down stairs there is a living room at the front with a fireplace, wooden floors, cornicing and small stained glass windows. There is an opening that leads through to a middle space that links to the kitchen diner. The kitchen has been extended to the side and is a fabulous bright space with large skylights above. The units are cream and wooden and spread across two walls and a further space at the back has matching floor to ceiling units. In the middle of the kitchen there is large dining table. You will also find a small window seat within the main kitchen space.

Upstairs there are several bedrooms. The master bedroom is a large space with painted green walls and a fireplace. The other bedrooms are smaller, two with double beds and one with a single bed.

Exterior

The house is on a quiet residential street with unrestricted on street parking. The back garden can be accessed via the kitchen and features two small patios and a lawned area.
