Floors

- Concrete Floor

Interior Features

- Concrete Pillars
- Unfurnished

Views

- City Scape View

Walls & Windows

- Industrial Windows

Interior

Use of 2nd floor of this flat-roofed industrial building. It has a utilitarian appearance that lacks decorative features. The industrial character of the structure is illustrated in its rhythmic vertical bays, robust brickwork, and vertical tall windows in the principal two elevations (i.e. south-west and north-west elevations). The windows are 1930s galvanised steel replacements, these symbolise significant features of the building.

Exterior

Graffiti industrial building in an urban area.
