- Countryside View

Interior

This detached timber framed home was built in 1900 by the owners family. It has a lived in feel with plenty of rooms. The main house has a living room, kitchen conservatory and dining space. Upstairs there are different shaped bedrooms due to the nature of the roof shape. There is also a detached annex with a kitchen, living room and bathroom. Upstairs there is a room with a pitched roof, currently filled with clothes but it is currently in the process of being cleared out. The barn has an attached man cave with pool table, bandit machine, pinball machine and bar.

Exterior

It is set in 4 acres of land and has a detached annex and a barn with a man cave. There is plenty of parking outwith the driveway on the grassed area. This sits next to the unique 600m gokart track and another shorter track for kids. Within the garage there are old cars and gokarts.
